Price: \$1.50 (plus GST)

Anchor[®] UHT milk has been ultra-heat treated so it has an extra-long shelf life. With the full-bodied taste of fresh milk, it[™]s also a source of protein to help maintain muscles* and is packed with calcium to help help build strong bones*. And because it[™]s able to be stored in the cupboard before opening, it[™]s a handy back-up for those surprise visitors or impromptu baking sessions.*when consumed as part of a varied healthy eating plan.
